One-o-One

Dedicated to the travelling nomad is this collection of travel mugs, which takes its name from the tallest skyscraper in Taipei, commemorating its skyline. In fact, this is the provenance of Acera, an Asian brand that transports the ancient ceramic artisanship of Taiwan to contemporary times.

The essential form of One-o-One interprets an everyday object in Chinese tradition - a portable ceramic cup – and makes the direct connection with European taste and a global lifestyle, where the travel mug becomes a functional and elegant accessory indissolubly tied to the idea of travel as a multicultural experience.

Description

In opaque hand-made ceramic, One-o-One is available in three different nuances in natural and dusty shades, in the neutral colors of taupe and warm grays. Two horizontal strips are designed on the external surface, which plays on the alternating smooth and textured surfaces, with three different decorations that add more grip. The finely smoothed wood lid makes the object elegant and transforms it into a precious portable accessory.

Materials

Ceramic, wood

Dimensions

d. 70mm h. 23 mm
